

Rising 6th Grade Summer Reading

Novel: Where the Red Fern Grows by Wilson Rawls

After reading Where the Red Fern Grows, create an illustrated timeline of at least **5** important events that took place in the novel. Add a caption to each illustration to explain the event with a short description (3-4 sentences). Be sure that all descriptions are written in complete sentences. Your illustrations and descriptions need to pertain to the novel's plot and must be in order as they occur in the story. You may use poster paper to create your timeline or use 5 sheets of white construction paper or card stock taped together to make your 5 scenes. Please make sure that your pictures and captions are neat, in color, and large enough to be seen. You will present your project to the class. The timeline will count as your first major assessment grade.

The timeline will be due the first day of school. Enjoy reading the novel and completing the project. Have fun and be creative!
